Updates

As part of Brain Awareness Week, celebrated in more than 65 countries, Lausanne, Switzerland hosted a major two-day neuroethical symposium, "*What's New Under the Skull?*", on March 13th and 14th. The keynote address, entitled "*Emotion and the Neurobiology of Human Values*" was delivered by Antonio Damasio. Judy Illes spoke about the need for an international identity for neuroethics in research and clinical medicine, public policy, and law.
